VERY quick note:

In the major donor section, please include on the back-end a request for donated/inherited land. After the legal meeting between Wa Yia and Extension yesterday, it became clear that buying and owning land for community gardening is a GREAT (and concrete) mission for FCG. Also, there's a ton of unused land in our area.

(Right now, BCCG doesn't own any of its own land, which makes it hard to call any garden "stable")

We're excited to see your newer draft.
