

Land Donation

The most fundamental need for community gardening is land for the gardeners to cultivate. Current community gardening programs like BCCG are unable to own land and use land donated on a year-to-year basis. FCG aims to acquire land to establish permanent community gardens in our area. In addition to, or instead of your monetary donation, consider donating plots of land in Northeast Wisconsin to FCG. No matter how big or small, securely owned land will guarantee permanent community gardens in our area and will continuously empower Northeast Wisconsin residents to grow healthy food.
