Dear Ms. Williams:

On behalf of ENGL 306 (Professional Writing) at St. Norbert College, thank you for sharing your gifts and knowledge. You have granted us insight into the challenges of supporting Brown County Community Gardens, and well as the benefits of this endowment project. We are confident that we are able to assist you in accomplishing your fundraising goals this semester.

Your wealth of knowledge was extremely valuable in enabling us to initiate our planning process. This information was vital in shaping how we will go forward with our fundraising. It was great to hear from somebody who has been so dedicated to the community and the gardens. We look forward to working with you in the upcoming weeks and months.

Thank you, too, for your longtime dedication to Brown County and its residents. The time that you donate to Brown County Community Gardens is inspirational and does not go unnoticed. We are excited to see what our future collaboration has in store for us!

Thank you once again,

The ENGL 306 Fundraising Team
