The Brown County UW-Extension Community Gardens program (BCCG) has partnered with Dr. Drew Scheler's Professional Writing class at St. Norbert College (SNC) to support community gardening in Brown County. Both partners are working to support the Friends of the Community Gardens' (FCG) mission and fundraiser theme—"Grow Better Together—as they create an endowment to protect, support, and grow community gardens programs in our area. Donors can give directly to the Fund at the Greater Green Bay Community Foundation (GGBCF) through our Snap to Give program. They may also participated in Waseda Farms' Skip The Bag Please Program, where Waseda Farms will donate \$1 to FCG for every time that a customer chooses to "skip a bag" throughout the month of November. Additionally, raffle tickets will be available for purchase across the community, with a drawing to be held on Giving Tuesday.
