Greens & reds

Beans & sprouts

Water me, I'll water you

Food i mean, close your eyes and think

Have you ever danced on an empty stomach?

Have you ever loved on an empty stomach?

I have.

I missed meals so that I could love, so I could dance, so that I
breathe

You into me.

Peppers & cucumbers

Purples & deep blacks

Now, you have left me,

I can eat

I can dance with a full stomach

I can love on a full stomach

But i will no longer be loving you
